Personal Summary

Hello, and thank you for visiting. I'm a product designer with hands-on experience creating digital products across different cultures, especially in Cambodia and Japan. I focus on building clean, user friendly interfaces that make complex systems feel simple and intuitive.

I am passionate about new technology, especially Generative AI and Artificial Intelligence, and I enjoy exploring how these tools can improve the way we design. I value ethical thinking, continuous learning, and using design to make a positive impact on people and the planet.

Work Experience

UX/UI Designer at ABA Bank ↗

January 2025 to Present | Phnom Penh, Cambodia

- Designed end to end user journeys for ABA's digital products.
- Collaborated with product, compliance, and engineering teams to align design with business and regulatory needs.
- Improved the design system with reusable components.
- Created interactive prototypes to support faster iteration.
- Provided clear documentation to support feature rollouts and developer collaboration.

UX UI Designer at Kirirom Digital Japan ↗

May 2023 to December 2024 | Kagawa Prefecture, Japan

- Led UX and UI design for fintech, e-commerce, education, IoT, and HR platforms.
- Built modular design systems to improve collaboration and reduce inconsistencies.
- Adapted interfaces for both Japanese and Cambodian users with cultural context in mind.
- Streamlined handoff and documentation for smoother
- Delivered high quality prototypes under pressure and facilitated design reviews across regions.

UX UI Designer at Mäd

May 2022 to May 2023 | Phnom Penh, Cambodia

- Designed complete user flows and prototypes for a Cambodian mobile banking app.
